Your child can also write a private comment for their teacher to see.

For example, they may have found the work too tricky and would like the teacher to know.

When you click on the document within the topic it will open a Google Doc. Google Doc is just like a Microsoft Word document. The children can then complete the worksheet and click 'Turn In' when completed.

This is very important as if it is not clicked then the work will not be sent back to the teacher and marked as completed.
