

Hounslow Family Services Directory and Early Help

At Grove Park our staff are always willing to help and advise families where possible. We also have a wonderful Inclusion Team which includes our Parent Support Adviser, Jo Lovatt, who is able to signpost parents and families to appropriate services and organisations: [Grove Park Inclusion Team](#)

In addition to this school support, Hounslow also have a wealth of services available for families. These can all be found on their Local Offer website: [Hounslow Local Offer Website](#)

Hounslow Early Help is part of this Local Offer and is a collection of services which aim to provide effective support to families as soon as difficulties start, to prevent them from getting worse. These services cover a range of areas, from parenting to health to education to support for teenagers. Your school, nursery or GP will also be able to help.

Practitioners in these services will discuss with you what is working well in your family and where you need extra support. They will help you to move forward and to access additional services where these may be able to help.

An important part of the Hounslow Early Help Offer includes providing families with the information they need to be able to help themselves, with minimum involvement from services.

Please visit the Early Help section of Hounslow's Family Services Directory if you need support or advice for your family:
